

Earth Day South LA - 2010

Vision

We envision an annual Earth Day event where community residents in South Central come together in a safe environment to have fun, celebrate our foods and cultures, learn about and participate in sustainable practices, and connect with each other and organizations working to make positive change in our neighborhood.

Mission

The purpose of Earth Day South LA is to serve as a catalyst for residents to be agents of advancing sustainable change, improving the quality of our lives, and advancing a more just society.

Goals

- Increase community residents' awareness of organizations and individuals doing transformative work in our community.
- Increase participation of local community residents in creating positive change.
- Raise CSU and Earth Day South LA Partners' profiles with city agencies, future potential partners, potential funders, etc.
- Provide a positive, safe, fun, educational, and affordable event where people can come together without having to leave the neighborhood.
- Cultivate, Support, Promote and Provide a venue for local and earth friendly artists and performers to participate in, reflect, inspire and envision our movement for sustainable change.
- Cultivate and nurture a culture and environment for collaboration among organizations and individuals working to advance sustainable change.
